

Health care

Our approach: consult the experts

Whether our clients are hospitals, healthcare providers, medical care centres (MVZ), care services, rehabilitation clinics or social institutions – our advice is based on many years of experience in the healthcare sector and on legal expertise and pragmatic solutions. Whether your problem is the supply of temporary employees and the use of external staff, funding agency requirements, cooperation and joint venture agreements, hospital contracts with consultants and other doctors, models for business transfer and outsourcing or questions of ecclesiastical employment law and the associated co-determination structures: together with you, we develop tailor-made solutions for your enterprise.
