

Logistics, transport, infrastructure

We clear the obstacles from your path

We represent leading national and also regional transport enterprises on land, on water and in the air. As a result we are quite familiar with the challenges of your business area. We give you employment-law advice in procurement, building, operational and maintenance projects, suggest methods to handle requirements for compliance with collective wage agreements and support you in establishing and effectively implementing your compliance arrangements. With our experienced and forceful teams we are also at hand in urgent and emergency situations and support you promptly and effectively, for example in the case of a strike, in pay disputes with branch-level unions and in disputes with works councils, e.g. on the duty roster.
